Product Description

CFMoto UFORCE U10 Pro Highland

Its luxury cabin, featuring a factory-installed HVAC system, delivers year-round comfort—whether it's -10° or 110°. From premium seats and a sound-dampening headliner to sealed power windows and an electric tip-out windshield, the Highland's interior feels more luxury SUV than UTV. A powerful 998cc liquid-cooled three-cylinder engine delivers smooth, reliable performance with exceptional torque for tough tasks and rugged terrain. The 8-inch RideSync™ touchscreen with Apple CarPlay delivers a command performance. With its unmatched combination of premium features, advanced engineering, and incredible value, the U10 Pro Highland truly rides in a class of its own.
