Product Description

Ventrac ED202 Edger - ED202

The ED202 **Edger** is designed to edge sidewalks, curbs, and cart paths as well as edging and maintaining flower and mulch beds. Edging can be done on either the right or left side per the operator's choice.

For hard ground edging, three 42 lb. (19 kg) weights may be added. The Multi-Position swivel wheel can be adjusted to various heights to follow a variety of terrain.

For the maximum in productivity and performance, a bidirectional blower can be added. This allows you to edge and blow debris from the area being edged all in one efficient pass. The blower has multiple positions including right, left or down which adds to its versatility. The ED202 mounts quickly, utilizing the [Ventrac Mount System](#).
