Product Description

LS MT463 Utility Tractor

The MT4 features a variety of configurations enabling you to find the exact configuration you need. A ROPS and Cab version are available with highly featured operator platforms/cabs. The ergonomic design provides all-day comfort, as the robust frame provides a high-capacity front loader and three-point lift.

LS MT463 Features -

- MT4 redesigned with new LS Family Look. New hood design allows for improved engine performance and serviceability
 - LED Lamps for all models provide better illumination for more efficient work in darker operating conditions
 - Larger tire size options which provide better grip and traction with lower ground pressure.
 - 15% more space in new cab design than previous model allows for more comfort and convenience in the same footprint. Additionally, the redesigned cab offer improved access to key components for easier diagnosis and routine maintenance
 - Improved high back for seat with wider and improved cushion for greater operator comfort
 - Enhanced lift height (up to 132.9" in max height mode) and capacity (3,487 lb in max power mode) for front loader (LL5001) with standard self leveling bucket
 - Standard 2 sets of remote valves. Adds functionality and improves ease of use by allowing attachment of hydraulically controlled implements without the high, additional costs like others in its class to add the remotes as options.
 - Extendable lower links. Category 2 with hitch lift capacity of 4,079 lbs. allows easier attachment of a wide variety of implements.
 - Standard 3rd function button on joystick
-
