Product Description

LS Tractor MT473 Tractor

The new 73 HP addition to the MT4 Series, the MT473 provides the extra power you need to meet any size job you have, and is available with either a synchro shuttle or power shuttle transmission.

The MT473 features increased productivity with its enhanced front loader, increased operator comfort with new seats and more efficient operating space.

Even with the increased power, maintenance is simple with no DEF required and a well thought out layout that makes routine maintenance tasks a breeze.
