Product Description

25 ft. 50 Amp Generator Cord for Portable Generators

Ensure your portable generator continuously provides optimal power to your home or recreation site. This power cord is designed for use with manual transfer switches and power inlet boxes up to 50 amps. With 25 feet of Thermoset Weather Resistant Compound rubber, this cord remains flexible in subzero temperatures. The harshest conditions are no match for this heavy-duty cord.

Product Features:

- NEMA 14-50 plug with CS6364 receptacle
- 6-gauge, 4-wire 125/250 VAC power cord
- Cord made of Thermoset Weather Resistant Compound
- Transfer Switch Compatibility: 120/240V, 50 Amp Manual Transfer Switch
- Power Inlet Box Compatibility: 50 Amp boxes with CS6364 NEMA connection
- 25-foot, heavy-duty cord

Fits Model Numbers: Compatible with Generac Portable Generators up to 7500 Watts with 50 Amp outlets.
